**(the “Company”)**

**Corporate Governance Code**

*(Amended and restated with effect from 31st December 2023)*

This Code sets out the corporate governance practices followed by the Company.

***The Board and its responsibilities***

1. The board of directors of the Company (the “**Board**”) is accountable to the shareholders for leading the Company and its subsidiaries (together, the “**Group**”) in a responsible and effective manner. Directors are collectively and individually responsible to the shareholders for the manner in which the affairs of the Company are managed and for promoting the success of the Company by directing and supervising its affairs.
2. The Board shall establish the Company’s purpose, values and strategy, and shall satisfy itself that these and the Company’s culture are aligned. All directors must act with integrity, lead by example, and promote the desired culture. Such culture should instil and continually reinforce across the organisation values of acting lawfully, ethically and responsibly.
3. The Board determines the overall strategies, monitors and controls operating and financial performance and sets appropriate policies to manage risks in pursuit of the Group’s strategic objectives.
4. The Board is responsible for performing the corporate governance duties and may delegate the responsibility to a committee or committees.
5. The Board’s responsibilities (some of which are discharged through delegation, with appropriate oversight, to relevant committees) include:
  - (a) development and review of the Company’s policies and practices on corporate governance;
  - (b) review and monitoring of the training and continuous professional development of the directors and senior management;
  - (c) review and monitoring of the Company’s policies and practices on compliance with legal and regulatory requirements;
  - (d) development, review and monitoring of the code of conduct and compliance manual applicable to employees; and
  - (e) review of the Company’s compliance with Appendix C1 to the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Exchange**”) and disclosure in the Corporate Governance Report.
6. The Board has established mechanism(s) to ensure independent views and input are available to the Board, which are disclosed in the Corporate Governance Report. The Board reviews the implementation and effectiveness of such mechanisms on an annual basis.

7. The Board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and ensuring that the Company establishes and maintains appropriate and effective risk management and internal control systems. Such risks would include, amongst others, material risks relating to Environmental, Social and Governance ("ESG") matters. The Board oversees management in the design, implementation and monitoring of the risk management and internal control systems, and management provides confirmations to the Board on the effectiveness of these systems.
8. The Board is responsible for maintaining an on-going dialogue with shareholders and in particular, use annual general meetings or other general meetings to communicate with them and encourage their participation.
9. The Board is ultimately responsible for preparing the accounts and for presenting a balanced, clear and comprehensible assessment of the Company's performance, position and prospects. This responsibility extends to annual and interim reports, disclosures of inside information required by Part XIVA of the Securities and Futures Ordinance and other financial disclosures required by the Listing Rules on the Exchange, and reports to regulators and information disclosed under statutory requirements.
10. The Board shall include a discussion and analysis of the Group's performance in the annual report, an explanation of the basis on which the Company generates or preserves value over the longer term (the business model) and the strategy for delivering the Company's objectives. The Company has a corporate strategy and a long term business model. Long term financial performance as opposed to short term rewards is a corporate governance objective. The Board would not take undue risks to make short term gains at the expense of long term objectives.
11. The Board would acknowledge in the Corporate Governance Report its responsibility for preparing the accounts. A statement by the auditors about their reporting responsibilities would be set out in the auditors' report on the financial statements. Accounts would be prepared on a going concern basis, with supporting assumptions or qualifications as necessary.
