Airline flights may be overbooked and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel, first ask for volunteers willing to give up their reservation in exchange for compensation of the airline's choosing. If there are not enough volunteers, the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions, persons denied boarding involuntarily are entitled to compensations. The complete rules for the payment of compensation and boarding priority are available at all Cathay Pacific airport ticket counters and boarding locations. Please contact our staff for assistance.

- (C) Involuntary Denied Boarding Procedure (For Flight Departure from USA)

(1) Compensation for Denied Boarding

If you have been denied a reserved seat on Cathay Pacific Airways, you are probably entitled to monetary compensation. This notice explains the airline's obligation and the passenger's rights in the case of an oversold flight, in accordance with regulations of the U.S. Civil Aeronautics Board.

(2) Volunteers and Boarding Priorities

If a flight is oversold (more passengers hold confirmed reservations than there are seats available), no one may be denied boarding against his or her will until airline personnel first ask for volunteers who will give up their reservation willingly, in exchange for a volunteer payment of USD \$200 or USD \$400 if "alternative transportation" cannot be arranged within or beyond 4 hours respectively. If there are not enough volunteers, other passengers may be denied boarding involuntarily in accordance with the following boarding priority of Cathay Pacific Airways:

- (a) Local Boarding Passengers, holding confirmed space solely on the oversold sector of the flight, who arrive at the check-in location where boarding passes are distributed after all boarding passes have been assigned.

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- (b) Other Local Boarding Passengers, holding confirmed reserved space to a point beyond the oversold sector, who arrive at the check-in location where boarding passes are distributed after all boarding passes have been assigned.
  - (c) Local Boarding Diplomatic Couriers.
  - (d) Transit Reserved Passengers.
  - (e) Transit Diplomatic Couriers.
  - (f) Cathay Pacific crew members travelling on a firm basis for operational reasons.
- (3) Compensation If Involuntary Denied Boarding  
If you are denied boarding involuntarily, you are entitled to a payment of "denied boarding compensation" from the airline unless
- (a) You have not presented yourself for check-in at the airport before the specified check-in closing time; or
  - (b) You have not fully complied with the airline's ticketing, check-in, and reconfirmation requirements, or you are not acceptable for transportation under the airline's usual rules and practices; or
  - (c) You are denied boarding because the flight is cancelled; or
  - (d) You are denied boarding because a smaller capacity aircraft was substituted for safety or operational reasons; or
  - (e) You are offered accommodations in a section of the aircraft other than specified on your ticket, at no extra charge, (a passenger seated in a sector for which a lower fare is charged must be given an appropriate refund); or
  - (f) The airline is able to place you on another flight or flights that are planned to reach your final destination within one hour of the scheduled arrival of your original flight.
- the information of check-in closing time is available from the Cathay Pacific ticket office, airport office, travel publications such as passenger itinerary receipts, system timetable and [www.cathayPacific.com](http://www.cathayPacific.com)
- (4) Amount Of Denied Boarding Compensation  
Passengers who are eligible for denied boarding compensation must be offered a payment equal to 200 percent of the sum of the face value of their ticket coupons, with a USD \$650 maximum. However, if the airline cannot arrange 'alternative transportation' (see below) for the passenger, the compensation is doubled (USD \$1300 maximum). The 'value' of a ticket coupon is the one-way fare for the flight shown on the coupon, including any surcharge and air transportation tax, minus any applicable discount. All flight coupons, including connecting flights, to the passenger's final destination or first 4-hour stopover are used to

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

compute the compensation. "alternative transportation" is air transportation (by an airline licensed by the D.O.T. or other transportation used by the passenger which, at the time the arrangement is made, is planned to arrive at the passenger's next scheduled stopover (of 4 hours or longer) or final destination no later than 2 hours (for flights within U.S. points, including territories and possession) or 4 hours (for international flights) after the passenger's originally scheduled arrival time.

(5) Method of Payment

The airline must give each passenger who qualifies for denied boarding compensation a payment by cash or check for the amount specified above, on the day and place the involuntary denied boarding occurs. However, if the airline arranges alternative transportation for the passenger's convenience that departs before the payment can be made, the payment will be sent to the passenger within 24 hours. The air carrier may offer free tickets in place of the cash payment. The passenger may, however, insist on the cash payment, or refuse all compensation and bring private legal action.

(6) Passenger's Options

Acceptance of the compensation may relieve Cathay Pacific Airways from any further liability to the passenger caused by its failure to honor the confirmed reservation. However, the passenger may decline the payment and seek to recover damages in a court of law or in some other manner.

(D) Request for Volunteers (For Flight Departure from Canada)

When the carrier judges that all passengers holding previously confirmed space and tickets on a flight cannot be accommodated on a given flight, the following procedure shall apply:

(1) In principle, passenger may not be denied to board against his/her will, unless Cathay Pacific Airways personnel first ask for volunteers who will give up their reservation willingly. passenger will be approached to give up their seat as soon as check-in starts.

(2) A volunteer letter (as shown below) will be given to volunteer. Dear valued customer, we wish to advise that flight (number) departing for (airport) is overbooked today, and as a result we may not be able to accommodate all passengers. If your plans allow, we would ask that you consider giving up your seat and travelling on an alternative flight. In the event that you choose to volunteer, we ask that you return to check-in counter (number) at (time), at which time our staff will be able to advise you of the situation. if we are able to accept you on the originally booked flight, we will offer you, as a token of our appreciation, a services voucher for (amount),

Tariff: CX1 - CTA No. 322 DOT No. 528

Alternatively, you may select a goodwill voucher for (amount), which is good for Cathay Pacific Travel Related Services. Should you require further assistance or if you have any questions or concerns, please do not hesitate to contact a member of our airport services team, who will be more than happy to help you in any way they can. We appreciate your understanding and would like to thank you for your kind assistance.

## Rule 100 Interline Baggage Acceptance

### (A) Definitions

#### "Airline Designator Code"

An identification code comprised of two-characters which is used for commercial and traffic purposes such as reservations, schedules, timetables, ticketing, tariffs and airport display systems. Airline designators are assigned by IATA. When this code appears on a ticket, it reflects the carrier that is marketing the flight, which might be different from the carrier operating the flight.

#### "Baggage Rules"

The conditions associated with the acceptance of baggage, services incidental to the transportation of baggage, allowances and all related charges. For example, baggage rules may address the following topics:

- (1) The maximum weight and dimensions of passenger bags, if applicable, both checked and unchecked;
- (2) The number of checked and unchecked passenger bags that can be transported and the applicable charges;
- (3) Excess and oversized baggage charges;
- (4) Charges related to check-in, collection and delivery of checked baggage;
- (5) Acceptance and charges related to special items, e.g. surf boards, pets, bicycles, etc;
- (6) Baggage provisions related to prohibited or unacceptable items, including embargoes;
- (7) Terms or conditions that would alter or impact the baggage allowances and charges applicable to passengers (e.g. frequent flyer status, early check-in, pre-purchasing baggage allowances with a particular credit card); and,
- (8) Other rules governing treatment of baggage at stopover points, including passengers subject to special baggage allowances or charges, etc.

#### "Interline Agreement":

An agreement between two or more carriers to co-ordinate the transportation of passengers and their baggage from the flight of one air carrier to the flight of another air carrier (through to the next point of stopover).

#### "Interline Itinerary":

All flights reflected on a single ticket involving multiple air carriers. Only travel on a single ticket is subject to the CTA/US DOT's approach provided the origin or the ultimate ticketed destination is a point in Canada/USA.

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

"Interline Travel":

Travel involving multiple air carriers listed on a single ticket that is purchased via a single transaction.

"Single Ticket":

A document that permits travel from origin to destination. It may include interline/codeshare and intra-line segments. It may also include end-to-end combinations (i.e., stand-alone fares that can be bought separately but combined together to form one price).

"Summary Page at The End of An Online Purchase":

A page on a carrier's web site which summarizes the details of a ticket purchase transaction just after the passenger has agreed to purchase the ticket from the carrier and has provided a form of payment.

"ultimate ticketed destination":

In situations where a passenger's origin is a Non-Canadian/us point and the itinerary includes at least one stop in Canada/USA, as well as at least one stop outside of Canada/USA. If the stop in Canada/USA is the farthest checked point and the stop is more than 24 hours, the CTA/USDOT would consider the ultimate ticketed destination to be Canada/USA.

Carrier Definitions

"Down Line Carrier":

Any carrier, other than the selecting carrier, who is identified as providing interline transportation to the passenger by virtue of the passenger's ticket.

"Marketing Carrier":

The carrier that sells flights under its code.

"Most Significant Carrier (MSC)":

is determined by a methodology, established by IATA (Resolution 302), which establishes, for each portion of a passenger's itinerary where baggage is checked through to a new stopover point, which carrier will be performing the most significant part of the service. for travellers under the Resolution 302 system, the baggage rule of the MSC will apply. For complex itineraries involving multiple checked baggage points, there may be more than one MSC, resulting in the application of differing baggage rules through an itinerary.

"Most Significant Carrier "(MSC) - IATA Resolution 302 as conditioned by the CTA/USDOT

In this instance, the MSC is determined by applying IATA Resolution 302 methodology as conditioned by the CTA/US DOT. The CTA/US DOT's reservation have stipulated that only a single set of baggage rules may apply to any given interline itinerary. The aim of the CTA/US DOT's reservation is to allow the selecting carrier to use the MSC methodology to determine which

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

carrier's baggage rules apply to an international interline itinerary to or from Canada/USA, while reinforcing the role of tariffs in the determination of which carrier's rules apply.

"Operating Carrier":

The carrier that operates the actual flight.

"Participating Carrier(S)":

Includes both the selecting carrier and down line carriers who have been identified as providing interline transportation to the passenger by virtue of the passenger's ticket.

"Selected Carrier":

The carrier whose baggage rules apply to the entire interline itinerary.

"Selecting Carrier":

The carrier whose designator code is identified on the first flight segment of the passenger's ticket at the beginning of an interline itinerary issued on a single ticket whose origin or ultimate destination is in Canada/USA.

(B) Applicability

This rule is applicable to all interline itineraries issued on a single ticket whose origin or ultimate ticketed destination is in Canada/USA. It establishes how the carrier will determine which carrier's baggage rules apply to any passenger's entire interline itinerary.

(C) General

For the purposes of interline baggage acceptance:

- (1) The carrier whose designator code is identified on the first segment of the passenger's interline ticket will be known as the selecting carrier.
- (2) Any carrier who is identified as providing interline transportation to the passenger by virtue of the passenger's ticket will be known as a participating carrier.

(D) Baggage Rule Determination By Selecting Carriers

(1) Checked Baggage

The selecting carrier will:

- (a) select and apply its own baggage rules as set out in rule 110 to the entire interline itinerary. Or
- (b) select the most significant carrier, as determined by IATA Resolution 302 and conditioned by the CTA/US DOT, in order for that carrier's baggage rules, as established in its tariff, to apply to the entire interline itinerary.

the carrier identified by means of a) or b) will be known as the selected carrier.

(2) Carry-On Baggage

Each operating carrier's carry-on baggage allowances will apply to each flight segment in an interline itinerary. Notwithstanding, the

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

carry-on baggage charges that will apply to the entire interline itinerary will be those of the selected carrier.

- (E) Baggage Rule Application By Participating Carrier  
where the carrier is not the selected carrier on an interline itinerary but is a participating carrier that is providing transportation to the passenger based on the ticket issued; the carrier will apply as its own the baggage rules of the selected carrier throughout the interline itinerary.

The disclosed information will reflect the baggage rules of the selected carrier.
- (2) The carrier will disclose the following information:

  - (f) application of baggage allowances and charges (i.e., whether they are applied once per direction or if they are applicable at each stopover point).

Rule 130 Fare Construction

- (A) General  
Except as provided in paragraph (J) published fares apply only for carriage from the airport at the point of origin to the airport at the point of destination. all fares are established in the currency of the country of commencement of travel. For assistance in fare computation and fare construction, neutral unit of construction (NUC) is established against all local selling fares and published arbitraries. Where CX ticket stock or a CX fare has been used, all relevant governing rules or fare rules under this tariff must be used.

- (B) Precedence Of Fares  
Unless otherwise provided in carrier's tariffs, a published fare takes precedence over the combination of intermediate fares applicable to the same class between the same points via the same routing.

(1) Mileage Principle

- (a) General - total ticketed point mileage (TPM) shall be compared with the maximum permitted mileage (MPM) for the component.
- (b) "Maximum Permitted Mileage (MPM)" is the maximum distance a passenger may travel at a one way or half round trip fare between the terminal points of a fare component.
- (c) "Ticketed Point Mileage (TPM)" shows mileage between two consecutive ticketed points of the passenger's routing.
- (d) Routing within MPM - where the sum of the TPMS does not exceed the comparable MPM, apply the applicable direct route fare.
- (e) Routings exceeding MPM - where the sum of the TPMS is in excess of the MPM by:

Over	Up to and including	The fare shall be not less than the direct route fare plus
	5	5
5	10	10
10	15	15
15	20	20
20	25	25
over 25	lowest combination	

MPMS shall be rounded down to the next lower whole mile. Example: routing Hong Kong SAR - Bangkok - Singapore - Kuala Lumpur has cumulative TPMS of 2143, MPM for direct fare Hong Kong SAR to Kuala Lumpur is 1887. according to above table, the routing falls into the range of 10 -15 surcharge. The MPM

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- with 15 is hence multiplied by 115 rounded down to the next lower whole mile 2170. there are 27 additional miles (2170-2143) to travel within the 15 surcharged MPM.
- (f) MPM Deductions or Extra Mileage Surcharge (EMS) - mileages must be deducted from the MPM before the comparison with the sum of TPMS is made. These MPM reductions only apply when the fare component and the global indicator coincide with the specific provisions.
- (g) TPM Exceptions  
(1) TPM Deductions or Extra Mileage Allowance (EMA) - mileages must be deducted from the total TPM before comparison with the MPM is made
- TPM deductions only apply when the fare component includes intermediate ticketed points shown in the routing specified; provided additional intermediate ticketed points may be added to the routing.
  - Only one TPM deduction per fare component is permitted
  - See table below

- (2) Surface Sector TPMS - any intermediate sector(s) traveled by surface within a fare component must be included in the sum of TPMS, except for intermediate sectors stated in the carriers' tariff in the absence of TPM for an intermediate sector (surface transportation), a TPM shall be established by a combination of TPMS. in assessing total TPMS of a fare component, following sectors may be ignored:

Note: if a ticketed point mileage is not published for these sectors, calculate the mileage by dividing the maximum permitted mileage by 1.20. The following examples are shown to illustrate the application of the above

of the TPMS may exceed the comparable MPM for such specified routings. Furthermore, higher intermediate point check and one way backhaul check may be ignored, provided that an intermediate point(s) may be omitted if a more direct routing is used and no additional point(s) is added.

- (2) For a journey originating in area 1 no fare component within area 1 may include more than one international departure and one international arrival at any ticketed point in the country where travel originates.
- (3) Except for journeys wholly within South America for a pricing unit originating in Brazil, a fare component from a point in Brazil must not include more than two domestic sectors in Brazil.
- (4) For a pricing unit originating in Germany a fare component from/to a point in Germany must not include more than two domestic sectors in Germany.
- (5) A fare component from/to/via a point in Japan must not include more than three domestic sectors in Japan.

(D) Combining Domestic U.S. Special Fares with International Fares

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- (1) A special fare application within the U.S.A. may be combined with an international fare to construct a through fare, which is less than the published fare from the point of origin to the point of destination, provided that the passenger complies with all conditions (e.g., period of validity, minimum/maximum stay, advance purchase requirements, group size, etc.) Of the special fare;  
Exception: any minimum tour price required by the special fare within the U.S.A. will not be applicable when the fare is combined with an international inclusive tour fare having a minimum tour price of the same or a higher amount.
  - (2) Mileage routings set forth in the MPM tariff may be applied to a fare constructed under paragraph (a) above, either for the entire journey between the point in the U.S.A. and the point in area 2 or 3/or between the gateway point and the point in area 2 or when the international fare used is published with a mileage routing.
  - (3) When travel is via a higher rated intermediate point, the applicable fare for the itinerary will be the highest of the fares applicable between such intermediate point and:
    - (a) the point of origin of the itinerary
    - (b) the point of destination of the itinerary, or
    - (c) another intermediate point of the itinerary.
  - (4) Notwithstanding paragraph (B) above, when a passenger purchases a one-way ticket for transportation via a higher rated intermediate point, the fare for such transportation will be constructed by calculating the round-trip fare for transportation via the higher rated intermediate point and subtracting therefrom the one-way fare for direct (not involving a higher rated intermediate point) transportation between the points involved.
- (E) Construction Rules For Journeys
- (1) The fare for a journey (excluding side trips assessed separately) shall be the lowest of:
    - (a) A single pricing unit for the journey, or
    - (b) Any series of end-on-end combined pricing units which collectively comprise the journey being traveled.
  - (2) (a) If the routing of the journey is determined as fulfilling the definition of a round trip or circle trip the pricing unit(s) must be assessed as a round trip or circle trip as applicable and must use half round trip fares; the use of one way fares is not permitted. For end on combination of normal and special fares, completely separate the special and normal fare and assess the normal fare subjourney according to the flow chart.  
Note: in the absence of a published RT

Tariff: CX1 - CTA No. 322 DOT No. 528

- fare, a published one-way fare will be considered as 1/2 RT.
- Example: Travel LON-MIL-STO-LON

LON-STO 1/2 RT)
- OW fares not permitted as travel is continuous, circuitous and returns to same point
  - Last fare component is assessed from country of origin.
- (b) If there is a common point/country on the routing, the journey may be broken into more than one pricing unit provided these must be for return subjourneys using half round trip fares.
- Example: Travel HEL-BKK-TYO-SEL-TYO-BKK-HEL  
Construction could be:
- |         |                         |

| HEL-BKK | RT 1<br>pricing<br>unit |
| BKK-SEL | RT 1<br>pricing<br>unit |
- (c) (i) A return subjourney only occurs if the fare is broken more than once at the common point/country. The fare for travel between such fare break points must be priced as a round trip, circle trip or normal/special fare open jaw, as applicable and must use half round trip fares.
- Example: Travel NYC-LON-JNB-MAN-NYC  
Construction could be:
- |         |                             |

- Both subjourneys fall within the definition of open jaw
  - Note: the above journey could also be constructed as NYC-JNB RT
- (ii) If travel between such fare break points would require the use of one-way fares, the construction is not permitted.  
Example: Travel NYC-LON-RIO-JNB-MAN-NYC

NYC-LON 1/2 RT)  
NYC-MAN 1/2 RT)  
LON-RIO OW)not  
permitted  
RIO-JNB OW)  
MAN-JNB OW)
- Travel LON-RIO-JNB-MAN does not meet the definition of normal fare open jaw as there are more than two international fare components.
  - Use of OW fares is not permitted as the journey is a circle trip
  - The total journey falls with the definition of CT and the only permissible construction based on the itinerary is as a single pricing unit.
- (d) Fares shall be assessed in the direction of travel, except that the fare component into the country of pricing unit origin shall be assessed in the direction from such country, i.e. not in the direction of travel.  
Exception: Fare components between Canada and USA and between Denmark, Norway, Sweden shall be assessed in the direction of travel except for round trip pricing units.

(3)

- (4) (a) If the routing of a journey does not fulfill the definition of a round trip or circle trip it shall be assessed as follows, subject to the routing:
- (i) As a one-way journey
  - (ii) As a series of one-way subjourneys
  - (iii) As a round trip, or circle trip journey with the surface sector assumed flown.
  - (iv) As an open jaw using two half round trip fares (subject to paragraph (2)(d) above).
  - (v) If there is a common point/country, the journey may be assessed as a mix of one way subjourney and a return subjourney (subject to paragraphs (2) (c) and (2) (d) Above)
  - (vi) If there is a common point/country, the

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

journey may be assessed as a mix of side trip and a return subjourney (subject to paragraphs (2)(c) and (2)(d) above.

Example: Travel MAN-LON (-PAR-LON)  
NCE-MAN

Construction could be:

MAN-NCE	RT 1
	pricing
	unit
PAR-LON	OW 1
	pricing
	unit

does not qualify for round trip, circle trip or normal fare open jaw. PAR-LON must be in the direction PAR to LON as the side trip is considered separate.

(b) In the case of (i), (ii) and the one way subjourney in (iv) above, the journey/subjourney must be assessed using one way fares; the use of half round trip fares is not permitted.

(c) Fares shall be assessed in the direction of travel, except that when a pricing unit for a one-way subjourney terminates in a country from which a previous pricing unit has been assessed, the pricing unit for the one way subjourney into such country shall be assessed from such country (i.e. not in the direction of travel).

Example: Travel ATL-SEL-SYD-BJS-PUS

Construction:

ATL-SEL	OW	1 pricing
		unit
SEL-SYD	OW	1 pricing
		unit
SYD-BJS	OW	1 pricing
		unit
PUS-BJS	OW	1 pricing
		unit

total 4 pricing units

- Fare component BJS-PUS must be in the direction of PUS-BJS because the termination point (PUS) is in the same country from which a previous pricing unit (SEL-SYD) is assessed.

(F) Routing

Unless otherwise provided in carrier(s) tariffs, fares apply in either direction and only to the service and routings of carrier(s) published in connection therewith; provided that routings via a point for which a higher fare is applicable will not be permitted unless such higher fare is assessed. If there is more than one routing at the same fare, the passenger, prior to issuance of the ticket, may specify the routing, and in respect to any open date portion of such ticket, may specify optional routings. If no routing is specified, carrier may determine the routing.

Exception 1: (For transportation wholly between points

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

in Area 1 (except Canada) and points in Area 3: applicable locally or jointly). the higher fare shall only be assessed if the passenger makes a stopover at the intermediate point for which a higher fare is published.

Exception 2: (Applicable for transportation wholly between points in Canada and points in area 3). Routings are published in one direction only, but apply for carriage in either direction, unless otherwise specified; and only to the fares published in connection therewith. An intermediate point(s) specified along the routing may be omitted provided that successive segments are flown non-stop on a single carrier named in the respective segments along the published routing. the higher fare shall only be assessed if the passenger makes a stopover at the intermediate point for which a higher fare is published.

(G) One-way Fares

(1) General

When a one-way trip ticket is purchased prior to commencement of carriage, the fares for the one-way trip shall be applied in the direction of travel.

(2) Fare Calculation

The one-way fare shall not be less than the fare calculations as follows:

- (a) Precedence of published fare check as provided in paragraph (B) above,
- (b) One way backhaul fare check as provided in paragraph (N) below,
- (c) Directional minimum check 1 for each fare component as provided in paragraph (O) below, and
- (d) Directional minimum check 2 where the highest applicable fare between any two ticketed points of the whole itinerary as provided in paragraph (O) below.

(H) Round Trip Fares

(1) General

When a round trip ticket is purchased prior to commencement of carriage, the fare for a round trip will be the round-trip fare published in the applicable tariff(s) of carrier via the desired routing and for the class of service used.

(2) Application of Combined Services and/or Special Short Limit Validity

When round trip, first class, business class, tourist/coach, economy, thrift or special short limit fares are applicable between the same points, round trip passengers will be charged the sum of 50 percent of the round-trip fares applicable to the classes of service used,

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

provided that:

- (a) Such fares, which by their terms are combinable with other fares, shall not be used in construction of round-trip fares; and
  - (b) The shortest validity period applicable to any such fare used shall apply to the entire round trip.
- (3) Fare Calculation
- (a) For the outbound component, use the one way fare or 50 percent of the round-trip fare as applicable in the direction of travel. For the last fare component into the country of origin, one-way fare or 50 percent of the round trip fare as applicable shall be applied from the country of origin towards the turnaround point.
  - (b) The round-trip fare is subject to the precedence of published fare check as provided in paragraph (B) above.

(I) Circle Trip Fares

When a circle trip ticket is purchased prior to commencement of carriage, the fare for such circle trip shall be the sum of 50 percent of the applicable round trip fares for the class of service to be used for the respective sections of carriage, constructed from point of origin via the desired routing, that produces the lowest fare for the circle trip; provided that:

- (1) Fares which by their terms are not combinable with other fares, shall not be used in the construction of circle trip fares; and
- (2) The fare constructed with combinations of sector fares should not undercut the direct published fare or add-on constructed fare as provided in paragraph (b) above.
- (3) If the fare for a circle trip travelled in one class of service constructed as specified above is less than the highest direct route round trip fare applicable to the same class of service between any two points on the circle trip route, including points within the side trip, such highest direct route round trip fare shall apply; and

Exception: this provision shall not apply to circle trip fares constructed for carriage completely around the world in the same general direction.

- (4) The fare for a circle trip travelled partly in one class of service and partly in another class of service shall be constructed in accordance with the provisions shown herein.
- (5) The shortest validity period applicable to any fare used shall apply to the entire circle trip.
- (6) The last fare component used inbound to the country of origin must be the fare applicable to such component from the country of origin.

(J) Open-Jaw Fares

- (1) Normal Fare Open Jaw
  - (a) General - the following conditions apply to

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- the assessment of a normal fare open jaw:
  - (i) The fare for a normal fare open jaw pricing unit shall be the sum of half the applicable round-trip fares for both international legs of the open jaw, assessed from the country of unit origin
  - (ii) Canada, USA shall be considered as one country
  - (iii) Except for pricing units wholly within Scandinavia, Scandinavia shall be considered as one country
  - (iv) Aruba, Bonaire, Saint Eustatius, Saba, Curacao, St. Maarten shall be considered as one country
  - (v) Except for pricing units wholly within Europe, Europe shall be considered as one country
- (b) Origin Open Jaw  
Only domestic surface sectors are permitted.
- (c) Turnaround Open Jaw
  - (i) Both domestic and international surface breaks are permitted
  - (ii) when the surface sector is an international sector the distance of such surface sector must not be greater than the flown distance of the shorter of the two fare components.
- (d) Double Open Jaw
  - (i) Combination of an origin open jaw and a turnaround open jaw with a domestic surface sector
  - (ii) Combination of an origin open jaw and a turnaround open jaw with an international surface sector
- (2) Special Fare Open Jaw  
Except as otherwise specified, the fare for an open jaw shall be the sum of half the applicable round trip fares or both legs of the open jaw, provided that when a fare component terminates in the country of unit origin, the fare applicable from the country of unit origin shall be used. Exception: for travel originating and terminating in Europe (except for travel wholly within Europe): where an open jaw applies between countries in Europe, the fare component which terminates in Europe shall be assessed in direction from Europe.
- (K) Round and Circle Trip Fares Partly via Carrier
  - (1) Entirely via air  
When a ticket is purchased prior to commencement of carriage for a round or circle trip which is partly via the services of carrier and partly via the services of other scheduled air carrier(s), the fare for each section of carriage via carrier will be 50 percent of the applicable round trip fare for such section of the round or circle trip, as the case may be.
  - (2) Partly via Air and Partly via Sea

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- (a) when tickets are purchased prior to commencement of carriage for a round trip or circle trip for combined air and sea travel, the air fare for each one-way section of the air journey will be 50 percent of all-year round trip fare published in tariffs governed by this tariff and applicable between the points and via the class of service used. A break in the round trip or circle trip is permitted to allow passengers to make their own way by any means of transportation between airports and adjacent seaports.
  - (b) The fares specified above will apply only via the routings published in connection with the all-year fares in tariffs making reference to this tariff for governing provisions, except that when an excursion fare is used as provided in the exception above, the routing published in connection with such excursion fare will apply.
- (L) Side Trip  
When a fare for a side trip is charged separately, all provisions of this rule, as applicable, shall apply from the point of origin of such fare component(s).  
Exception: combination of one-way normal pricing units with international side trip one-way pricing units to or via the country of commencement of
- (M) Higher Intermediate Point Check (HIP)
  - (1) Normal Fare HIP
    - (a) If in any routing otherwise permissible at the direct route normal fare there is a direct route normal fare(s) of the same class of service involving stopover points from
      - (i) Fare component origin to each intermediate stopover point;
      - (ii) Each intermediate stopover point to each subsequent intermediate stopover point;
      - (iii) Each intermediate stopover point to the subsequent fare break point which is higher than the direct route normal fare between the fare construction points, the fare shall be not less than the highest fare referred to above (hip). in the case of fares that are established by seasonality (including blackout dates) or day of week or flight application, the check will be based on the applicable fare (by seasonality including blackout dates), or by day of week or by flight application).
    - (b) If in any indirect routing otherwise permissible at the direct route normal fare plus, a percentage (EMS), there is a direct route normal fare(s) of the same class of service involving stopover points as specified in (a) (i),(ii), (iii) above which is higher than the direct route normal fare between the fare construction points, the

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- fare for the indirect route shall be not less than the highest fare referred to above (hip), and the surcharge percentage (ems) applicable to the through fare shall be applied to such higher intermediate fare.
- (c) when comparing normal fare of the 'same class of service' in order to determine if there is a higher intermediate fare, the following sequence shall be followed. Sleeper seat is compared with sleeper seat fare; if no sleeper seat fare, compares with the highest first class fare, ignoring any fare rule provisions first class fare is compared with first class fare; if no first-class fare, compare with the highest intermediate/business class fare (or next lower class fare), ignoring any fare rule provisions intermediate/business class fare is compared with intermediate/business class fare; if no intermediate/business class seat fare, compare with the highest economy class fare, ignoring any fare rule provisions economy class is compared with economy class fare; if no economy class fare to compare, no check is required.
  - (d) when comparing normal fares in accordance with the foregoing, the comparison shall be made in the same direction as the fare component. When using half round trip fares the comparison shall be made using half round trip fares. When using one-way fares, the comparison shall be made using one way fares.
  - (e) where more than one normal fare is published for the carrier and the class of service used the lower/lowest level may be used subject to any stopover, transfer, seasonality (including blackout dates), flight application, routing validation, day of week limitations of the lower/lowest fare (excluding application of stopover charges).
  - (f) when the ticket shows no stopover at both the unit origin and the unit destination point of a side trip which has been charged separately (due to transfer connections on both occasions) a stopover shall be considered to be taken at such point unless the time interval between the arrival immediately preceding the side trip and the departure immediately following the side trip does not constitute a stopover.
  - (g) when there is an imbedded surface sector the hip check applies to the point of arrival by air immediately preceding the surface sector and to the point of departure immediately following the surface sector, unless the time interval between the arrival and the departure does not constitute a stopover,

Tariff: CX1 - CTA No. 322 DOT No. 528  
Carrier: Cathay Pacific Airways - CX

- however, such check shall not apply between the terminal points of the unflown sector.
- (h) When there is a fare construction surface sector, the hip check applies to the point of such surface sector that is not the fare construction point unless the time interval between the arrival and departure at such point does not constitute a stopover; however, such check shall not apply between the terminal points of the unflown sector.
  - (i) Notwithstanding the Above,
    - (i) For journeys originating in western Africa, the hip check in each fare component shall be applied on all ticketed points in Western Africa.
    - (ii) For journeys origination in Malawi, the HIP checks in each fare component shall be applied on all ticketed points in Malawi.
  - (j) Day-Of-week Application: in establishing the day-of-week fare level to be used for the hip check the rule for the application of the day-of-week fares shall be applied solely to the sector(s) for which the check is being made. The day of travel on such sector(s) shall be used to determine the day of week fare level to be used for the hip check.
  - (k) In establishing the seasonal fare level to be used for the hip check the rule for the application of the seasonal fares shall be applied solely to the sector(s) for which the check is being made. The seasonal rule for such sector shall be used to determine the seasonal fare level to be used for the hip check. Where reference in a seasonal rule is to a specific segment of travel e.g. first international sector, the specific segment shall be assessed within the sector(s) for which the hip level is being established.
- (2) Special Fare HIP
- (a) If in any routing otherwise permissible at the direct route special fare there is a direct route special fare(s) of the same class of service from,
    - (i) Fare component origin to each intermediate stopover point.
    - (ii) Each intermediate stopover point to fare component destination which is higher than the direct route special fare between the fare construction points, the fare shall be not less than the highest applicable special fare referred to above (hip).
  - (b) If in any indirect routing otherwise permissible at the direct route special fare plus, a percentage (EMS), there is a direct route special fare(s) of the same class of service involving points as specified in (a)

Tariff: CX1 - CTA No. 322 DOT No. 528  
 Carrier: Cathay Pacific Airways - CX

- (i) and (ii) above, which is higher than the direct route special fare between the fare construction points, the fare for the indirect route shall be not less than the highest applicable special fare referred to above (hip), and the surcharge percentage (ems) applicable to the through fare shall be applied to such higher intermediate fare.
- (c) The sequence described below shall be followed for each sector indicated in (a)(i) and (ii) above.
- (i) The special fare of the fare component shall not be less than the lower/lowest applicable special fare of the same fare type.
  - (ii) If there is no matching applicable special fare of the same type, the special fare of the fare component shall not be less than the lower/lowest applicable special fare within the same fare type group.
  - (iii) If there is no applicable special fare within the same fare type group, the special fare of the fare component shall not be less than the lower/lowest applicable special fare within the next higher fare type group. Continue to the next group only if there is no applicable special fare found.
  - (iv) If there is no applicable special fare within any higher fare type group, the direct route special fare, surcharged if necessary, should be used.

Note: Any stopover/transfer charges which apply to an intermediate stopover point are excluded.

- (d) In defining a 'special fare' of the same fare type group, the comparison shall be from the lowest to the highest of the following fare type groups:

  - (h) when there is an imbedded surface sector the hip check applies to the point of arrival by air immediately preceding the surface sector and to the point of departure immediately following the surface sector, unless the time interval between the arrival and the departure does not constitute a stopover, however, such check shall not apply between the terminal points of the unflown sector.
  - (i) when there is a fare construction surface sector, the hip check applies to the point of such surface sector that is not the fare construction point unless the time interval between the arrival and departure at such point does not constitute a stopover; however, such check shall not apply between the terminal points of the unflown sector.
  - (j) Notwithstanding the Above,
    - (i) For journeys origination in western Africa HIP check in each fare component shall be applied on all ticketed points in West Africa.
    - (ii) For journeys between Kilimanjaro and Nairobi, the hip check in each fare component shall be applied on all ticketed points.
    - (iii) for journeys origination in Malawi, the hip check for each fare component shall be applied on all ticketed points in Malawi.
  - (k) Day-of-week Application: in establishing the day-of-week fare level to be used for the hip check the rule for the application of the day-of-week fares shall be applied solely to the sector(s) for which the check is being made. The day of travel on such sector(s) shall be used to determine the day of week fare level to be used for the hip check.

Where reference in a seasonal rule is to a specific segment of travel e.g. first international sector, the specific segment shall be assessed within the sector(s) for which the hip level is being established.
- (N) One Way Backhaul Check
  - (1) This paragraph does not apply
    - (a) For pricing units wholly within TC1
    - (b) For pricing units wholly between Argentina, Brazil, Chile, Paraguay, Uruguay and TC2
    - (c) For pricing units wholly within Europe
    - (d) For pricing units between Europe and the Middle East/Africa
    - (e) For pricing units wholly within Africa
  - (2) This paragraph applies only when using normal one way fares pricing units.
  - (3) If in any fare component travel is via a higher rated intermediate stopover point, the fare for such fare component shall be the higher of:
    - (a) The applicable fare between the fare construction points, or
    - (b) The fare from fare component origin to the highest rated intermediate stopover point plus the difference between such fare and the direct route fare between the fare construction points. The one way backhaul rule check need not be applied for points which have been excluded from the provisions of this resolution, subject to the same conditions contained in the exclusion.
- (O) circle Trip Minimum (CTM) Check
  - (1) The applicable fare for a circle trip - normal fare (excluding any side trip which has been charged as a separate pricing unit) shall not be less than the direct route normal round trip fare for the highest rated pair of points applicable to the class of service used from the point of unit origin to any stopover point on the route of travel.
  - (2) When there are round trip fares with different global indicators from the point of unit origin to any stopover point, the fare to be used for the check must be that applicable to the flown itinerary.
  - (3) when the flown itinerary incorporates such different global indicators (including round the world travel), the fare must not be less than the lower of such round-trip fares from the point of unit origin provided that, only direct route fares between two points with the appropriate global
